

# MUHAMMAD USAMA

Full-Stack MERN Developer

+92 3110714802   mirza.codes7@gmail.com   [Linkedin Portfolio](#)   [GitHub](#)   Faisalabad, Pakistan

## SUMMARY

With **3+** years of experience in full-stack web development, I build scalable and user-focused applications using the MERN stack—**MongoDB**, Express.js, React.js, and Node.js. Skilled in HTML5, CSS3, Tailwind CSS, Bootstrap, JavaScript, and TypeScript, and experienced with Context API, Redux Toolkit, **REST APIs**, JWT, NextAuth, and Firebase, I deliver clean, responsive, and high-performance web solutions.

## EXPERIENCE

### MERN Developer

Remote, Faisalabad Pakistan

[IT Empire Pvt Ltd](#)

06/2024 - 09/2025

- Optimized app performance, resulting in smoother functionality and improved user retention.
- Enhanced multi-device data synchronization for a seamless user experience.
- Refactored the app architecture to improve scalability and support increasing daily active users.
- Guided junior developers on Swift best practices, improving overall team productivity.
- Integrated modern iOS features to keep the app up-to-date and maintain strong user ratings.

### MERN Stack Developer (Junior Level)

Faisalabad, Pakistan

[JOURNEY ONLINE](#)

03/2023 - 05/2024

- Developed and optimized native mobile apps for e-commerce platforms, improving user engagement and overall app performance.
- Implemented interactive features using Swift and Android frameworks, contributing to an increase in monthly active users.
- Enhanced code quality by improving performance, stability, and reducing crashes to ensure smooth app functionality.
- Collaborated with UI/UX teams to create intuitive and visually appealing interfaces, boosting user satisfaction.

### MERN Stack Developer (Junior Level)

Faisalabad, Pakistan

[Enzipe](#)

02/2022 - 12/2022

- Contributed to a social media app by developing key features and improving performance, helping the app reach over 10,000 downloads.
